## WOULD REMOVE SPANISH DEAD TO CEMETERY

Present Place of Burial Is Said to Be in Neglected Condition.

Another attempt is being made to have the bodies of 31 Spanish sailors moved from Seavey's Island to the navy yard cemetery. For several years Chief Boatwain W. L. Hill, who has charge of the yard's cemetery through the several yard commandants has been working for the removal of the remains of these men to a place in the government grave yard, where the lot in which they rest may be properly cared for.

Since 1898 when these men died in the stockade the remains have been lying in a long, narrow spot on the river bank, and the graves more or less neglected. Several times the local navy officers through the department have communicated with the authorities in Spain for the purpose of having their bodies removed to that country, but with little success. Outside of the interest manifested by the late Admiral Cervera, very little attention was paid to the request of the American government in this matter.

The Spanish dead were among the 1,700 of Cervera's fleet captured at the battle of Santiago, and brought here as prisoners of war in 1898.

## FOR ATTACK ON SOUND FORTS

Twenty Destroyers and Five Submarines are in Readiness to Begin Their Part of Program

Newport, R. I., August 3—Twenty destroyers and five submarines slipped out of Narragansett bay today to be in readiness to give the coast defense branch of the army a week of hard work along Long Island Sound, beginning tomorrow. On board the eleven powerful battleships of the fleet, steam was up for an early departure tomorrow morning.

It is not to be a trial of strength between the army and navy according to war department officials. The Atlantic fleet is simply to lend its services, for the benefit of the army's practice plans, and no decision is to be announced as to the supremacy of either land or water forces.

New London harbor it is understood, is to be mined and the coast defense service will be called upon to try to stop the quick dash of destroyers sent ahead to open up a lane for battleships. Mine laying, searchlight drills, and regular battleship practice will be indulged in to give the coast defense some practice under actual war conditions.

Since the last joint maneuvers in 1905, the navy has made long strides in battle drills. Each year the destroyers and submarines have played an increasingly important part in the fleet maneuvers and for the next week they are expected to try out thoroughly the resources of the army.

**Plans Are Laid Out**  
Rear Admiral Charles J. Badger commanding the Atlantic fleet has laid out a plan of action to fit in with the purposes of the army. Coast commanders from the Delaware river to Maine have received their instructions from Major General Barry at the headquarters of the eastern department of the army at Governor's Island, New York, and for the past two weeks they have been strengthened by detachments from other points along the coast. The North Atlantic coast artillery directly involved in the drill is commanded by Colonel J. V. White, whose headquarters are at Fort Totten, N. Y., while the Long Island Sound defenses, in the zone of the exercises are under the immediate command of Lieut. Colonel Davis. Fully manned, as in war time, with 23 companies of coast artillery men, Fort H. G. Wright on Fisher's Island, Fort Terry on Plum Island and Fort Michie on Great Gull Island will be the first positions involved in the maneuvers. The Atlantic fleet will represent the enemy and will test out thoroughly the organization of the defense.

Much attention has been devoted for the past few years toward standardizing the coast artillery organizations, and nothing but standard and approved methods in the present maneuvers will be permitted by the war department. In order to gain a thorough knowledge of the capabilities of limitations of the coast defense, not only regularly appointed observers but the participants will be required to make critical reports on methods and organization as applied both to personnel and equipment.

**GREENACRE**  
Dr. Millard Moore will speak under the Pines at 10.30 a. m., Tuesday, August 5th on "Bergson's Philosophy" and Friday, August 8 at the same time and place, Madam de Bielski will lecture on "Prophecy and Prophecies."

## SUCCESSFUL RAIDS MADE BY OFFICIALS

County Officers Find Liquor at Hampton Beach and Epping.

The most successful raid yet pulled off by the Rockingham County officials took place on Sunday and as a result several persons who have been engaged in the illegal sale of liquor were caught red handed, so to speak.

The party comprised of County Solicitor Ernest L. Gupill, Sheriff Ceylon Spinner, Deputy William B. Shaw, left here at 2 o'clock and were later joined by Deputy Tilton of Exeter.

The officers first went to White Rock, Hampton Beach, where they visited the places kept by Amos Gannon, Frank H. Green, and Arthur Green and at each place large quantities of both malt and spirituous liquors were found.

The raiding party next went to the place in North Hampton, kept by Charles Garland and as evidence of sale was found all of the parties were ordered to appear in the District court at Hampton on Monday.

The officials afterward visited several places in Kingston and Epping, and at the latter place liquor was found at three places kept by Italians, and the proprietors were ordered to appear in the district court at Newmarket on Tuesday.

### FELL DOWN STAIRS.

Mrs. Lydia Carter Meets With Mishap at Home on Hanover Street.

Mrs. Lydia Carter residing on Hanover street met with a serious mishap on Friday evening and in consequence is restricted to her home. She was about to descend the stairs when she made a misstep and fell the entire length to the hall below. She was rendered unconscious and remained on the floor for some time until found later by a member of her family. Mrs. Carter sustained numerous bruises by her fall as well as a general laming up, and has since been under a physician's care.

### OBSEQUIES

**Mrs. Charles H. Tibbets**  
The funeral services of Mrs. Charles H. Tibbets were held at Christ church on Sunday, Rev. Charles E. V. Brine conducting the Episcopal rites. George Wright of Dover feelingly rendered "Face To Face." The body was taken to East Haverly for burial under direction of W. P. Mitchell. The pall bearers were: Charles Perry, Robert Gray, Frank Hall, Walter Hall. The floral tributes were as follows: Pillow of carnations, roses and ferns—husband and children. Spray of actors and ferns from sister—Miss Rose Emery. Spray sweet peas—Mrs. Stickney. Cross of roses and carnations and ferns—Christie church choir. ## BIG NAVAL BASE FOR BERMUDA

Great Britain Said to be About to Establish One for Protection of Shipping

Washington, August 3—Keen interest has been aroused in official circles here by a report reaching the state department that Great Britain is contemplating establishing a great naval base in the Bermuda Islands. It is stated authoritatively that the British government made inquiry concerning the plans of the United States for the protection of the Panama canal routes that it has been suggested that this indicates an intention to protect British shipping through the isthmus as is done in the Mediterranean.

Officials realize that the problem raised is a tremendous one, involving as it may the very life of the Monroe doctrine and working perhaps a revolution in foreign naval policy in the western hemisphere. For it is expected that if Great Britain changes her naval policy in American Atlantic waters, other European nations will probably follow suit. While these changes may be expected in the Atlantic waters and the West Indies officials likewise realize that with the opening of the canal the United States must contend with Japan for the dominating of the Pacific.

**Gave Up Ten Years Ago**  
The British royal navy abandoned its naval stations in the waters of this continent about ten years ago, when the United States gave up the idea of constructing the Nicaraguan canal and set about digging the big waterway across Panama.

Apart from its West Indian stations, the royal navy maintained stations at Esquimaux, British Columbia, and Halifax. There was once

## SUCCESSFUL PERFORMANCE AT AN END

Handsome Sum Netted for the Benefit of Society of Colonial Dames.

On Saturday afternoon in the garden of the Colonial Dames' mansion, the concluding performance of the play, "Un Jour d'Été," was equally as successful as its precedent. Every member of the cast, even the pet lamb, performed their respective parts most excellently.

The attendance was even larger than on Friday afternoon, and many who had seen the first presentation came to see it the second time.

The pantomime was presented in the same charming manner as the preceding performance and at the conclusion Miss Mary Stearns Hengeman was showered with bouquets from her friends as a token of their appreciation of her wonderful work.

Delicate refreshments of tea, crackers and cakes were served in the garden after the entertainment. Mrs. Seabury poured, while the Misses Priscilla Calhoun, Charlotte Macdougall, Zilla Macdougall, Etheldreda Seabury and Lispenard Seabury acted as waitresses.

This affair eclipsed all others of its kind held in this city and netted a large sum for the benefit of the New Hampshire Branch of the National Society of Colonial Dames of America.

### NEW POLICE BOARD.

One for Manchester to Be Appointed Before Sept. 1.

The death knell of the present Manchester police commission was sounded yesterday when the act providing for the ousting of the present commission and the appointment of three new members went into effect. The act was one passed in the last session of the legislature.

While the act is now in effect the terms of the present commission do not expire until Sept. 1, and Governor Parker will be required to name the personnel of the new commission before that date. The appointments are looked for in about three weeks. Unlike the present commission the terms of the new commission will be shortened, members being appointed for terms of one, two and three years, instead of terms of two, four, and six years.

The history of the Manchester police commission is interesting. It was established in January 1894, the first members being Hon Isaac L. Heath, the first chairman appointed for a term of six years, and Frank P. Carpenter, then shortly member named for a term of two years. Commissioner Heath was associate

## POLICE AUTO CAUSE OF FATAL ACCIDENT

One Killed and Several Badly Injured at Waterbury, Connecticut.

Waterbury, Conn., August 3—One police officer was killed, a police commissioner fatally hurt and three more or less seriously hurt today when their automobile, belonging to the department, was overturned on the road near Seymour. The party were returning from a visit to New Haven. The machine, recently purchased was demolished.

**The Dead**  
Robert P. Kierstead, member of the local police force.

**The Injured**  
William A. Johnson, police commissioner, ribs broken and internal injuries; may die.  
Henry O'Connor, registrar of voters, ribs broken and internal injuries.  
Christopher Dunphy, cut and bruised.  
Alphonse Vallone, cut and bruised.

All of the injured were brought in this city in an ambulance sent out from St. Mary's hospital and are now at that institution. Dunphy is a saloon keeper and Vallone is known as a pugilist.

So far as the inquiry showed, the automobile was not being driven at excessive speed at the time of the accident. A bridge was being crossed and the roadway was slippery. As the wheels skidded one struck a small mound of dirt, and collapsing, upset the machine. Superintendent Beach of the police department says Kierstead was an expert department driver and had never had an accident before.

# P. A. C. DEFEATED THE ALL STARS IN FAST GAME

The P. A. C. defeated an All Stars team from the Sunset League at the play grounds on Saturday afternoon in a fast and interesting game. The inability of the All Stars to hit McPherson when hits were needed, made it rather easy work for the P. A. C. McPherson allowed but seven hits, but kept them well scattered.

Christie Hefferman was the box artist for the All Stars and while he allowed but eight hits, they were bunched in the sixth and three runs resulted.

Bill Brackett had a strenuous day at short, having fifteen chances, fifteen of which he accepted. Fredrick played a nice game at second and Wilbur covered first in a clever style.

For the losers Hanson played a fast game in left, making one sensational catch, and he did fine stick work, getting three singles. Cragen played a good game at short and Mose Howard at second and McWilliams at short played fast ball.

It was a decidedly fast game, only one hour, 12 minutes. The summary:

YORK BEACH WINS

Boston & Maine Clerks Beaten in an Exciting Game, 7 to 5.

York Beach, Aug. 3.—York Beach defeated the Boston & Maine clerks of Boston today on Railroad Field, 7 to 5. The Boston & Maine boys put up a steady game, but Lerner weakened in the eighth, and the Beach scored four runs. Richards of Manchester high pitched well after the fourth inning; he struck out 13 batters. Bill of Boston Pine Arts School excelled at bat for the Beach while Cragen showed up well in the field and at bat for the Boston boys.

# MADE NEW WORLD'S RECORD FOR FLIGHT

Paris, Aug. 3.—Eugene Gilbert, a French aviator, today flew from Paris to the town of Pelajo, on the Portuguese frontier, a distance of 1022 miles in an effort to win the Pommery Cup. The prize is awarded semiannually to the aviator who makes the longest flight across country from sunrise to sunset on one day, during which he may stop as often as he wishes to replenish fuel.

Gilbert beat the record of 875 miles made June 10 last by Marcel G. Brindejonc des Moulins when he flew from Paris to Warsaw.

Gilbert left Paris at 4:45 o'clock this morning and made a seven-hour non-stop flight to Vitoria, in Spain, where he landed. Ascending again at 1 p. m. he headed for Portugal and at 8 o'clock this evening was reported to have descended at Pelajo.

# RANKING OF THE STARS

Jackson Leading Batter and Boehling, Pitcher, in American League, McDonald and Wagner in National

Chicago, Aug. 3.—The pace set by Joe Jackson proved too swift for Ty Cobb this week, and the Detroit player fell behind in the American League batting averages. Jackson pounded his percentage up to .405, but Cobb dropped to .396. The Cleveland man has played in 93 games while Cobb has been in only 98.

Dan Murphy, Philadelphia, is third in the American League with .378. Then come Speaker, Boston, with .371; Caldwell, New York, .355; Jernigan, Boston, .351; Collins, Philadelphia, .348; Melner, Philadelphia, .333; Gaudin, Washington, .332 and Lajoie, Cleveland, who ranks 10th with .331.

Charles McDonald, Boston, continues to be the real leader in the National with .371, though Earl Yingling, Brooklyn, for 23 games is hitting .393. Hyatt, Pittsburgh is third with .362; R. Miller, Philadelphia, fourth with .359 and Daubert, Brooklyn, fifth with .349. Then come Walsh, Philadelphia, .346; Cravath, Philadelphia, .341; W. Collins, Boston, .333; Zimmerman, Chicago, .318, and Hess, Boston, .217.

Pitching honors to date show Wagner of Brooklyn, the only undefeated hurler in the National League with two games to his credit, though he has taken part in 11. Humphries, Chicago, and Demaree, New York, are tied with nine wins and two defeats. Mathewson, New York, is next with 18 victories and 5 defeats, while Marquard, New York, is 8th with 21 wins and 5 defeats.

Bochling of Washington, who suffered his first defeat the other day, is ahead among the American League pitchers, with 14 victories and one defeat, up to the time of closing the unofficial averages for the week.

Private car 444, with general manager B. H. Pollock of the Boston & Maine was attached to the 6:50 p. m. train for York Beach on Saturday.

During July the Pennsylvania road broke all records by moving 180,113 freight cars, an increase of almost 4,000 a day over the same 1912 month.

The New Haven railroad is to extend the new automatic system recently installed between Stamford and South Norwalk, Conn., from the latter city to New Haven. The first section of this new system was put into operation on July 20. Work is expected to be completed by January 1, 1914.

The signal system from New Haven to Springfield is also to be replaced and work on this will start within a week. The old style hand signals are to be discarded and signals of the semaphore type substituted. Alternating current will be used to operate and light these signals.

A new order on the Boston & Maine directs that ticket and freight agents under weekly account of business, for several months they have been required to render a daily report of business at their stations.

The New York public service commission has ruled that smoking shall not be permitted in any of the New York subway, on stations or platforms or cars, except on old fashioned open cars used in the summer.

According to statistics in eighteen years out of the last twenty, period between July 15 has seen an advancing stock market.

Northern Pacific railway officers and employees will give a farewell dinner to Howard Willott at St. Paul August 8th.

The officials of the Boston and Maine are causing much activity among the trustees as in the delays in passenger service. A new order directs that all delays of passenger trains by freight, and work trains shall be reported by telegraph immediately and by mail within one hour after the train causing delay arrives at its destination.

## WILL NOT TOLERATE FOREIGN INTERFERENCE

## President Huerta Is Going to Run the Country to Suit Himself.

Mexico City, Aug. 3.—Foreign interference in the conduct of his task of pacification will not be tolerated by Provisional President Huerta. He proposes to stay in the Presidency and will brook no interference on the part of Nationals, or foreigners.

This determination was expressed in a statement issued this evening by Dr. Aureliano Urrutia, the Mexican Minister of the Interior, on behalf of the President.

"Gen. Huerta will not resign," Dr. Urrutia said. "Much less will he permit Nationals or foreigners to take a hand in a question in which is involved his honor and that of the Nation. I will say still more—that Gen. Huerta has contracted an obligation with the Nation and with the entire world to establish peace in the Mexican Republic. This obligation is in the way of being fulfilled.

"If, when it is realized, our Government has been recognized by that of the United States, we shall rejoice. If it is not we will lament it. We will not, however, change our attitude of defense of National honor and dignity."

The declaration of the Minister of the Interior is regarded in political circles here as the Government's answer to the Mexican deputies who are promoting a movement to bring about

an understanding between the Huerta Administration and the rebels.

Gen. Huerta today authorized the statement that Gen. Felix Diaz, who was recently appointed special Ambassador to Japan to thank the Japanese Government for its participation in the Mexican centennial in 1910, will continue on his mission to Japan.

Gen. Felipe Angeles, one of the generals most loyal to the late President Madero, during the bombardment of Mexico City, and who long had been confined in prison, charged with the execution of innocent young men during the fighting at that time, was sent to Europe today on a special military commission. He will sail from Vera Cruz.

## INDICATE WILSON POLICY

Bryan Asks Money to Take Americans Out of Mexico—President Against Army Proposal.

Washington, Aug. 3.—While President Wilson has not yet announced the policy which he thinks the Government ought to pursue toward Mexico, there is every reason to believe he is evolving a plan of noninterference in the internal affairs of the Republic.

Two developments today emphasized the trend of affairs toward an attitude of friendly noninterference. It

became known that the President in conferences with members of the House Military Affairs Committee had discouraged the idea of making preparations for a volunteer army.

Likewise Sen. Bryan's request for an appropriation of \$100,000 with which to transport destitute Americans from Mexico in emergencies developed a feeling in official circles that the American Government would endeavor in a crisis to remove Americans expeditiously from the trouble zones. This procedure, it is felt, would minimize the chances for international difficulty, as any destruction of property would be cared for through indemnification, and there is every indication incidentally that the Wilson Administration will pursue a vigorous policy toward recovering damage to foreign property in Mexico.

## Intervention Not Considered

With Americans out of Mexico, at any rate those parts where chaos may develop, the United States Government would feel less responsibility for the progress of events there and would assume the role of an observer rather than a participant, the latter position being one which, despite strong efforts from many quarters it is fairly well determined President Wilson would not countenance.

He never has allowed the thought of armed intervention to enter his consideration of the solution for the Mexican problem, but on the other hand his efforts in working out a policy for the American Government in this situation and those like it in the future are directed toward a peaceful program.

Hope that the Mexican factions will agree on a provisional President to succeed Huerta still prevails here. The Constitutionalists, however, are making repeated representations that if permitted to obtain arms on an equal basis with the Huerta Government they would soon be triumphant and restore the country to peace.

## A LIST OF PUBLIC ENEMIES

A report published by the hospital and health board includes a list of "public enemies which, if properly interpreted and digested, will do much toward the prevention of disease and death. The public enemies are:

- Doctors who don't report their cases of contagious diseases.
- Dirty milkmen.
- Filices.
- Tubercular cows.
- Persons who conceal contagious diseases.
- Hokey-pakey men.
- Reckless speeders.
- Violations of quarantine.
- Manufacturers of adulterated candies and foods.
- Child slaves.
- Parasitinous taxpayers who place the burden of money above the protection of children.
- Mothers who needlessly deprive their babies of mother's milk.
- School boards that neglect sanitation and sanitation.
- Vendors of soothing syrups and other "doped" nostrums.
- The Louisville health department adds:
- Anti-vaccinationists.
- Careless spitlers.
- Dr. W. S. Wheeler health commissioner adds:
- Landlords who rent poorly ventilated and lighted living rooms.
- Improper nourishment.
- Improper clothing as applied to changes of seasons of the year.
- Poorly ventilated nickel theatres.
- Parents who permit a child recovering from illness or who has been difficult, to overplay.
- Baby pacifiers.—Kansas City Star.

## POLICE NEWS

There were eight drunks and one for safe keeping on the police blotter Saturday night. The drunks were mostly strangers and a harmless lot. Many were discharged and the others held over.

There was no arrest at all on Sunday.

One of the boys from Lynn who was under age and arraigned in the juvenile court obtained bail Saturday afternoon and went home with his father. The other was placed in the Industrial School by the Probation Officer until the October term of court.

Clerk Trueman of the local District Court, turned over to County Treasurer Parker, twice the amount that Clerk Hickford of the Manchester court received for the same time. This District Court tries in a year's time as many cases as Manchester and more than any other court in the state, but there is a big difference in the salaries. Here it is but \$750 whereas in Manchester it is \$1500.

## THEY'RE NOT POLICEMEN

Chicago, Aug. 3.—The 10 women selected by Mayor Harrison for and addition to the police force should not be called "policewomen." In the opinion of members of the Women's party of Cook County who attended the monthly meeting yesterday. It was the beginning of an hour's discussion, during which the suffragists asserted that the appellation of "policewoman" is not suggestive of refinement, does not support the dignity of the office and is highly improper because the duties are on a higher plane than those of a mere policeman.

It finally was decided that the 10 women should be referred to as "social service workers" or "civic service workers."

## NATIONAL MASTER PRESENT

Dover, Aug. 3.—About 300 Grangers attended the annual field meeting of

the Eastern New Hampshire Pomona Grange at Central Park Saturday. At upon a basket picnic dinner was served.

Pomona Master, Charles W. Varney gave the welcoming address, State Sec. George B. Drake responding. The chief speaker was National Master Wilson of Ohio, Gov. Feltner was to have spoken, but was in Concord on official business. State Over-see Adams spoke, Miss Ida Connor gave readings and Pearl Giles and Balth Posa sang.

## "THE COURTIN'" IN COMIC OPERA

Unique Operetta Will be Produced at Boston Theatre Sept. 15th—First New England Rural Comic Opera.

It looks as though "The Courtin'" the first New England rural operetta, would rival in popularity that famous New England country play, "Quincy Adams Sawyer." As a matter of fact "The Courtin'" is the story of "Quincy Adams Sawyer" adapted to comic opera form for stage presentation, both brilliant works coming from the same source, James Russell Lowell's famous poem, "The Courtin'." The elaborate production, built with an eye to preserving all the rural charm of New England in the early sixties, is now being built in Boston, and the large company in rehearsing there. The initial presentation will be at the Boston Theatre on Sept. 15th, and a limited engagement will be played at that house before this operetta is taken to New York City for a run.

There will be no need, for a censor in the case of "The Courtin'." The late James Russell Lowell never wrote a line "that dying he could wish to blot," and the operetta retains all the charm and country atmosphere of the poem. The rural lovers, Zeke and Huffy, are the hero and heroine, and another pretty love story is worked in with the fun and frolic of the singing school, the sleigh ride, the surprise party, and the games of our youth that were popular in the sixties; in fact they have not gone out of favor in the country even in these days of automobiles and aeroplanes.

Many of the leading musical critics are calling for opera in the English language—not translations from the French and German, which are often clumsily made, and the European wit of which is not as acceptable as American humor. In "The Courtin'" we have an American theme, Americans as actors and chorus, and language and incidents purely American.

## NO PROTECTORATE OVER NICARAGUA

Washington, Aug. 3.—Sen. Bryan's plan for an American protectorate over Nicaragua providing American supervision of Nicaragua's finances, independence and foreign relations, Saturday was shelved for the time being.

Apparently with the knowledge of the Administration, the Senate Foreign Relations Committee before which the project has rested for two weeks, passed a resolution asking Sen. Bryan to submit a new Nicaraguan treaty, omitting the protectorate policy.

The compact, at the request of the Senate Committee, is to be limited strictly to the original negotiations, by which the United States was to pay \$3,000,000 for an exclusive canal right across the country, a naval base site on the Bay of Fonseca and a lease of the corn islands in the Caribbean Sea.

The situation had been laid before the President, it is understood, and it is expected that the Administration will submit next week a new draft of the treaty that will comply with the Senate's suggestions.

Members of the Foreign Relations Committee asserted today that the future policy of the Government as to the establishment of Central American protectorates had not been determined.

## RUSSIA TO SHUT BAPTISTS OUT

Holy Synod to Proclaim Them a "Sect Harmful to State," it is Announced.

St. Petersburg, Aug. 3.—The Russian ministry of the interior is credited today by the Novoye Vremya with the intention of permitting the Holy Synod to proclaim the Baptists as a "sect especially harmful to the state" and therefore not eligible for registration and not possessing the right of liberty of worship.

The action of the government is attributed by the newspaper to recent refusals of Baptists to take the military oath.

The Baptist World's Alliance, during its session in Philadelphia in 1901, raised \$70,000 for the establishment of a Baptist seminary in St. Petersburg and two Baptist ministers were appointed to proceed to the Russian capital to seek permission from the Emperor for the erection of the buildings.

Nobody can ever accuse Governor Folger of exceeding the speed limit when it comes to making appointments.

## That Imaginary Newport, R. I., Navy Yard.

The citizens of Newport, R. I., certainly have a lively publicity committee at work booming that place as a naval base. Here is the latest dope which is purely imagination:

"Following the visit of naval officials to the town and the inspection of a 400-acre site for use as a navy yard to handle the overflow business of the Brooklyn and Charlestown navy yards, the citizens are elated at the prospects of a marine station at Greenport. Several sites in the immediate vicinity of Greenport were viewed by the naval officials. One site in particular, near Orient and close by the breakwater, seemed exceptionally favorable. The government is seeking a new site following the report of Captain Louis Van Dusen, in which he condemns the Brooklyn yard and recommends a new location in the shallows off Communipaw, N. J. Although the spot suggested by Captain Van Dusen was inspected, the naval officials, after the trip to Greenport, regard the site here more favorably. It is the idea of Captain Van Dusen to build up an area of 400 acres, with piers sufficient to berth 40 battleships, 20 torpedo boats and tugs, together with submarines, barges and lighters. The Greenport site has a natural water frontage that is deeper than New York harbor. Several forts on islands in the immediate vicinity would furnish protection in case of war."

The fact is that the government has at last awakened to the fact that Portsmouth offers the use of a complete navy yard with space and equipment to take over the New York and Boston yards with space to spare. The members of the naval committee have seen it with their own eyes and it will not follow the bait of the officers' lobby at Newport. Portsmouth does not need anything but a "square deal."

## What Makes a Newspaper.

We presume there never was a newspaper in any locality that gave all the local happenings. It is often that someone comes or goes that the reporter does not see. It happens that the family is missed several times. They get the impression that the editor does not care to mention them. This is a mistake. In most country towns the local work is the hardest work connected with a newspaper. A man may be a good editorial writer, but a flat failure in the local work, and vice versa. Editorial material is obtained by study, by reading newspapers, sometimes by using scissors. Persons and local happenings can't be read and clipped from other papers, not by a jugful. It takes physical as well as mental exertion to get out four or six columns of local news in a city of this size. Most people take a local paper to get the local happenings. Don't be afraid to tell the editor or reporter that you have friends visiting you. There are lots of people who are interested in your friends. You owe it as a duty to them to let your friends know of their doings. Perhaps you think the paper shows partiality, but just see if the paper doesn't treat you right if you give it a chance.

## The Old Cry.

If all the people who own dogs would keep them fed properly, instead of leaving them to prowling about the alleys in search of the unclean stuff on which many of them have to live, hydrophobia would be a thousand times more rare than it is. If no one considered it sport to chase a stray dog to the point where he is wild with terror the newspapers would not have to print items about dogs which have bitten children. It would be more human to kill dogs than to muzzle them. It would put humanity in a better light if it appreciated every day a dog's affection and faithfulness instead of once in a while when the dog has the chance to prove these innate qualities.—Manchester Leader.

## The Latest War Scare.

The latest war scare planned by the space writers of Washington is that Great Britain is going to make Bermuda a big naval base. Well, what of it? She owns Bermuda and it is already a naval station.

## May Cease to Be a Joke.

President Wilson and the Mexican situation continues to occupy the front page. Before long the Mexican affair may cease to be a joke.

Brandeis of Boston has deserted the democrats and is out for Bird for Governor of Massachusetts. It is a very dull day when Brandeis does not get into the newspaper headlines. He is really anything for publicity.

## They Can't Vote Yet, But They Can Paint.

### These Suffragists Show How It's Done.

Photo by American Press Association.

While suffragist couples from all parts of the Union were invading Washington to pay their respects to congress a band of the faithful remained at home at Tompkinsville, N. Y., off which warships often anchor when they visit New York harbor, and painted. Now, when you say a woman paints it is possible to qualify your meaning, no matter whether she is a suffragist or not. These votes for women advocates turned painters in real truth. Donning overalls, bloomers or old skirts, with hats firmly placed on, they attacked their clubhouse and painted under a red hot sun just like men. They climbed ladders and risked their limbs on the slanting roof just as nimbly as any stonemason or painter could have done. What is more, they made a good job of it. The picture shows Miss Elizabeth Degroot in overalls as head painter and Miss Genevieve Merritt in bloomers as assistant foreman of the job.

## CURRENT OPINION

## THE VALUE OF THE INCOME TAX.

The sum total of tax conditions in this country is that the masses of the people who are least able to do so, are compelled to pay the chief portion of both federal and state and local taxes. They pay about all of our \$312,000,000 of internal revenue taxes; they pay by far the greater portion of our one to two billion dollars of state and local taxes. . . . A comprehensive income tax law closely approaches the Golden Rule of taxation; no one can escape his reasonable proportion of taxes. The miser, the sojourner abroad, the holder of hidden wealth, especially intangible personality, are all caught within its net.

"The scientific income tax would be an accurately graduated tax with its lowest rate applying to the income just above that required to support an average family. In view of the fact that the great bulk of our more than two billion dollars of government, state and local taxes are now paid by citizens whose incomes are under \$1000, it was not deemed unfair to fix the exemption for the present at the latter figure. Later, when the new law becomes generally understood and adjusted to the country, and taxes are better equalized, or the needs of the Treasury greater, the exemption would naturally be lowered to something like \$2000, and special deductions allowed according to the size of the family, the number of indigent relatives being supported, and for premiums paid on life insurance, etc. The proposed exemption of \$1000 would embrace these latter without special mention thereof. Furthermore, the government only needs \$100,000,000 additional revenue at this time. These, among others, afford the chief reasons for inserting the proposed rates and exemptions in the pending bill. These rates can easily and quickly be raised or lowered.

A contest has been waged in the United States for more than twenty years in behalf of this tax; to secure it the people have overturned a decision of the U. S. Supreme Court by writing an amendment into the Constitution. The income tax is here—and to stay. At all times affording a substantial amount of revenue, this tax, combined with our present internal revenue taxes and also the tariff rates revised to an honest revenue basis, will give the United States a new and modernized fiscal system, unexcelled by that of any other country.—Cordell Hull, Representative in Congress from Tennessee.

The young ladies of Class 6 of the Methodist church gave a charming entertainment in the vestry of the church last Friday evening, the purpose of which was to secure money for church expenses. The program consisted of readings by Mrs. Elmer Burnham and Mrs. Milton Cochrane; vocal solo by Winifred Sprague; chorus by the class; and a tableaux drama, entitled "The Bachelor's Reverie." In this sketch the part of the bachelor was taken by

Mr. Edgar Baker, who was also the author and stage director, and in his reverie he called to mind his many sweethearts, while members of the class represented pictures, each of which was beautiful in itself. There was his first sweetheart, Mother, represented by Eleanor Lovell; his school girl sweetheart by Mildred Smith; Sweet Sixteen by Isabelle Christenson; his summer girl, Annie Prince; his athletic girl, Mabel Tomaskie; his Japanese girl, Amy Windrich; and the bride, Bernice Glidden. Music appropriate to each picture was rendered by Bernice Glidden and Mrs. Margaret Jackson Gerry. Refreshments of ice cream and cake and home-made and manufactured candies were enjoyed after the program, and everybody went home feeling that it was one of the prettiest entertainments ever given in Kittery.

Quite a number of people from Portsmouth enjoyed the presentation of the "Bachelor's Reverie" in Kittery last Friday evening.

The members of the Second M. E. church are busy getting ready for their all-day fair and entertainment to be held Saturday, Aug. 16.

"Tag Day" was in evidence in Kittery on Saturday and although people were scarce, the young people collected \$37, which was turned over to the treasurer, M. W. Paul, Saturday evening. Miss Minnie Morrow and Master Fred Noyes collected the largest amount, the latter having turned in \$8.40, the former \$5.05, while Douglas Cochran, Phil Woods, Roy Fernand and Myron Woods turned over from \$2 to \$2 a piece. Other collectors were Paul Condon, Reginald Maby and Dudley Noyes, each doing good work. Those ladies looking after the children

were the Misses Ovente, Gerry, Rogers and Lowell. Mrs. Charles Woods with her automobile, with three of her children and two others, including Alice Mills, paraded Kittery Point to the amount of \$8. Mr. L. L. Williams and wife, with several taggers, taking the route from Navy Yard station around the post road and Kittery Depot, to the amount of \$3. This money will be used to finish up the work around the Hanscomb fountain and other places in our town. If each citizen was thoroughly interested Kittery could be made to look just as inviting as York. Certainly our main street from bridge to bridge needs cleaning if any place ever did, for now we are made fun of by all strangers visiting here. Let us wake up and clean up. Thanks are extended to all who so kindly helped on Saturday.

The selectmen announce that a crew of men will commence the work of spraying the trees for the extermination of the brown tail moths this week and the residents are notified to be on the lookout for those engaged in the work.

The services at the Second Christian church were well attended yesterday, considering the extremely warm weather, and excellent sermons were preached by the pastor, Rev. Arnaldo Natino.

Estella M. Kramer of York was a visitor in town on Sunday.

A meeting of Kittery Grange is called for this evening at 8 o'clock, at the home of George D. Boulter, Love lane, to make arrangements for the picnic to be held at Kennebunkport, in connection with York Pomona field day. All members interested are requested to be present.

Mr. Fred Moore of Newton, Mass., is visiting relatives in town.

Mr. and Mrs. Elmer Pray and baby of Melrose, Mass., who have been visiting her parents, Mr. and Mrs. L. H. M. Pray of Rogers road, have returned home.

Regular meeting of Riverside Lodge, No. 72, I. O. O. F., will be held tonight. Mr. and Mrs. Arthur J. Travis of South Framingham, Mass., passed through Kittery en route to their home on Saturday.

Regular prayer meeting of the local churches Tuesday evening at 7.30.

Marshall Stimson of Lynn, who has been in town for some time past on account of the serious illness of his mother, has returned to his work. Mrs. Stimson is greatly improved.

Business meeting of the Young People's Society of Christian Endeavor on Thursday evening, August 7, at the home of the President, Mrs. Alexander Dennett, Echo street, at 7.30.

Gunner J. C. Heck, U. S. N., and Mrs. Heck, who have been the guests of Mr. and Mrs. George O. Wilson of Wentworth street for the past week left today for Boston.

Master Ralph Locke, son of Mr. and Mrs. Frank Locke of Kittery Point, is quite ill, having undergone a serious operation.

Regular monthly meeting of E. G. Barber Post, G. A. R., on Thursday evening, Aug. 7.

Ralph E. Dennett of the U. S. S. Petrel, who is visiting his parents, Mr. and Mrs. Alexander Dennett, passed Sunday with his uncle, Capt. John Dennett, of York.

Mrs. Abbie Cook of North Kittery, who has been quite ill is improving.

Mrs. Oliver P. Philbrick of Portsmouth was a recent visitor with Capt. and Mrs. Warren N. Philney of the navy yard.

A fire started in the pasture land of the Dennett farm at 12 o'clock Saturday night, and over an acre and a half was burned before it was under control. It is wonderful that there are no more forest fires as it is so very dry with scarcely any rain for some weeks past.

Mr. Sugrue, who recently purchased the Hayes block on Government street is to open a barber shop on Tuesday.

Mrs. Augustus Zava of Manson avenue is entertaining her two sisters from Boston.

Mr. George S. Welch of North Kittery is in feeble health at his home.

### Attention Rebekahs!

The officers and members of York Rebekah Lodge are requested to meet at their lodge room at 1 o'clock Tuesday afternoon to attend the funeral of Sister Nellie A. Swift. Per order, NELLIE M. TREFETHEN, N. G.

### NOTICE

The officers and members of Pleasant Chapter, Order of the Eastern Star, will please meet at the lodge room Tuesday afternoon at 11.30 to attend the funeral of our departed sister, Nellie Swift.

### FIRE IN CEMETERY

A grass fire in the old north cemetery Saturday noon gave several members of the Franklin Pierce Veterans Firemen's Association a chance to test out their abilities as fire fighters. The vets were doing good work when the auto chemical arrived on the scene and put an end to their work. The fire is thought to have been set by boys.

will be held the latter part of this week at the Wentworth Golf Club.

### At Lanier Camp.

Miss Turner of Boston and Miss Hagerman of Kansas City, Mo., arrived at Lanier Camp on Saturday to summer here.

The boys at this resort have returned from a three-days' camping trip up river which they enjoyed immensely.

Miss Meyers and Miss Fulton of New York city arrived at Lanier Camp today to spend the remainder of the season.

Mrs. Bertha Cushing Child, the famous singer of Boston, arrived at Lanier Camp on Sunday.

### Ocean Wave House.

The regular Saturday night hop was held in the dance hall at this hotel with the attendance of a hundred persons, which included many from neighboring resorts and Portsmouth. These ever popular hops prove to be immensely popular with all the young people in this section. Music was furnished by the hotel orchestra. The hop was very successful both financially and socially.

Edward Fitzgerald of Montreal is at the Ocean Wave for an extended sojourn.

Messrs. J. L. Stone of Cambridge and C. D. Atwood of Somerville spent the week-end at this resort.

The party including Mr. and Mrs. H. C. Rowe, Mrs. C. L. Dickford, Miss G. M. Lear, Mr. Philip Rowe and Mr. G. W. Terry of Haverhill, Mass., is staying at this hotel for an extended period.

Mr. and Mrs. Haven D. Hartford of Lowell, accompanied by Mr. Carl E. Griffin and Miss Helen Barrett of the same city, are guests at the Ocean Wave.

Mr. and Mrs. H. L. Plather and family of Nashua and guest, Mrs. I. Lateman, are sojourning at this resort.

W. H. Barnes of Lawrence, Mass., is registered at this hotel for some time. Mr. James Wilson of Newton Center is a guest at the Ocean Wave.

According to Dr. Golze's theory, it is the result of a vast atomic current generated by the motions of the planets and the suns of the universe and governed by the laws of gravitation.

While this current is produced under good conditions, the doctor says, life proceeds normally and no changes occur in the body. To live for at least twice the present period, a fact that is necessary is to facilitate the harmonious working of the current which, Dr. Golze asserts, can be secured by a kind of massage for the body every morning.

Dr. Golze, who, at an advanced age preserves almost boyish vigor and alertness, says that his youthfulness is entirely due to his discovery.

There were two still alarms on Sunday, both for brush fires. The first was shortly after twelve o'clock when the auto chemical was called to the Cornell lot on the Wentworth house road, where there was a brisk fire in the under brush. It was checked before it had extended into any valuable timber.

In the afternoon there was an alarm from the Sherburne road, where there was a wood's fire near the burning

## ABANDONED BABY WAS PROBABLY BROUGHT HERE

No new developments have been found as to the identification of the baby abandoned on Friday night on the steps of the Convent of Mercy on Austin street. The police discovered that the clothing on the body bore a laundry mark, but it was not that of any of the local laundries.

Several people have been found, who claim to have seen a woman with a baby in her arms in that vicinity between 9 and 10 o'clock Friday evening, but the description given of the woman was not very definite. The baby is strong and healthy and his clothing were all of fine material. For the present he is being cared for by Mrs. Nichols who took him in on Friday evening.

The County Commissioner will have to provide some home for the child and in all probability it will be sent to the Infant Asylum at Manchester.

## NEWS NOTES OF THE AMERICAN ROAD CONGRESS

National Aid and National Highways will engage the attention of the delegates to the American Road Congress during one session of the six which will be held at Detroit during the week of September 29th. It is expected that ex-Senator Jonathan Bourne, Jr., Chairman of the Joint Committee on Federal Aid in the construction of post roads, will place before the congress his plan for lending the credit of the National government to the states through the ultimate issuance of a billion dollars of good roads bonds. Senator Swanson of Virginia, also a member of the joint committee, will explain his plan for an annual cash appropriation conditioned upon an equal appropriation by the states and an equal division of responsibility for construction and maintenance. The Shackelford plan given great promise by Hon. D. W. Shackelford, the chairman of the Good Roads Committee of the United States House of Representatives, will also be explained to the Good Roads delegates. Mr. Shackelford's plan provides for a system of rewards on all rural delivery roads meeting certain requirements. Differing from it, these schemes is that which provides

for a system of national highways built and maintained entirely at the cost of the national government. A champion of this plan will also be heard. After the presentation of the various schemes now advocated for adoption by the government, discussions will be had and an endeavor made to harmonize differences and bring about the announcement of a definite policy for submission to the congress of the United States by the American Road Congress. As a majority in both the senate and the house of representatives favor some form of government aid it is important that this great national gathering of good roads workers should take definite action.

Detroit is planning a notable series of social events in honor of the American road congress. These will comprise banquets and informal entertainments by the Board of Commerce, the Wolverine Club, the Adcroft Club, and the Rotary Club, a public reception at which all of the delegates in attendance at the congress may have an opportunity to meet the distinguished guest from Canada and the United States, and a boat ride and smoker on one of the huge excursion boats plying on the Detroit River, as well as numerous automobile excursions to points of interest in and about Detroit. The citizens of that enterprising city claim that nowhere in the world is the climate so delightful as in Detroit during the first week in October. They say that Belle Isle Park is the most beautiful in the world, and that the Detroit river carries more freight than enters the harbors of New York, Boston, Philadelphia, Baltimore and San Francisco combined, that the nearness of the city to the wonderful vacation and fishing regions of north Michigan and Ontario make it the ideal convention spot and that its great manufacturing are worthy of a trip of inspection on their own account.

Logan Waller Page, Director of the United States Office of Public Works, will read a paper at the Road Congress at Detroit on the Selection of Road Materials. Before he was appointed to his present post Mr. Page assembled at Harvard University the first road material testing laboratory in America. Following his studies at the French school of Roads and Bridges, and his name is now identified with some of the best known apparatus for road material tests. The selection of road materials is an exacting job and it is certain that Mr. Page's paper will receive the closest attention.

A subject which will be taken up at the contractors session of the Road Congress at Detroit, which should prove of special interest to road contractors is the Protection and Up-keep of Road Equipment. An immense amount of money is lost through failure to protect and properly maintain costly road machinery and equipment. Another subject which will be presented by a trained specialist is the Organization and Arrangement of Working Forces. It is quite a problem to place the road hands of a big force so as to avoid waste of time and money and this subject should bring out much useful discussion. A special committee of three of the most prominent engineers and contractors identified with contract work of which Mr. J. R. Wendlinger, Secretary American Society of Engineering Contractors is chairman, will have charge of the program of the contractor's session.

The American Bar Association and the American Bankers Association have each authorized special committees to cooperate with the management of the American Road Congress in the holding of sessions at Detroit to deal respectively with road legislation and the financing of road improvement. An effort will be made at the legislative session to bring about the formation through official channels of a national committee to codify state road laws and recommend standard uniform legislation for each state and the elimination of the great accumulation of conflicting and confusing road laws. The Finance section will endeavor to have adopted in all parts of the country simple and

effective methods of road accounting and a record of such cost data as may be essential to the proper conduct of road work, and will also deal with the important subject of bond issues.

## GALLINGER AND KERN TILT

Washington, Aug. 3.—A heated exchange of personalities between Majority Leader Kern and Minority Leader Gallinger culminated in the Senate session Saturday as the result of an offensive motion by Senator Swann son that Secretary of the Navy Dan- iels speech to the graduating class at Annapolis be printed as a public document.

"Is that the speech?" inquired Senator Gallinger, "in which the secretary advised that the officers and crew mess together?"

"Or is it," asked Senator Clark of Wyoming, "the speech that caused a riot?"

"I don't believe," said Senator Kern warily, that the secretary of the navy ever gave such advice. I do know that in one speech he rebuked that snobbish spirit among the perfumed officers of the navy which made them, in one instance to my personal knowledge, prevent the appointment as an officer of a clean, studious man, who had been a common sailor. They refused to have a man who had been a sailor eat with them at their table."

Senator Gallinger hotly retorted he was "formed a fine facts when I said the secretary advised the men and officers to mingle at mess. He rebuked Kern for attempting to 'read him a lesson.'"

There is an impression here, answered Kern, that no senator young in service dare speak for fear of being criticized or attacked by some of the older senators.

Gallinger laughed at this charge and repeated he would "not be lectured" as to any facts which he could state on his own authority. Kern closed the passage with a remark that not all of the attacks on the younger senators were made upon the floor.

## RUTH ST. DENIS TO APPEAR AT MID-SUMMER FESTIVAL

York Harbor, Me., Aug. 3.—Yon's Harbor's famous midsummer out-of-doors fete, which has attracted such widespread attention in the past, is to be given this year on Tuesday, Aug. 12. Every preparation for the fete has been completed by the citizens and the program arranged presages the affair's success.

Miss Ruth St. Denis, the celebrated dancer, is to be there and will display the latest fantasies of the terpsichorean art. Each of her dances is to be amidst natural surroundings and the setting promises to enhance her charm. She will give her latest success, "A 16th Century Poetess of Japan," and also the two Hindoo dances which won fame for her.

The proceeds derived from the presentation of the fete will be devoted as in past years, to the York Historical Society. The society is practically maintained in this manner, and already there has been a large number of subscriptions received.

## OBSERVATORY DEDICATED

Dover, N. H., Aug. 3.—The dedication of the Sawyer Memorial Observatory on Garrison Hill, erected in memory of Joseph B. Sawyer of this city, under the will of his wife, Abbie M. Sawyer, took place at the hill at 2.31 Saturday afternoon before a large crowd. A band gave a concert before the exercises.

Mayor Charles H. Foss, chairman of the dedicatory committee presided, in presenting the structure to the city Ex-Mayor John H. Needley, the resident executor of Mrs. Sawyer's estate, paid tribute to her memory.

Mr. Needley alluded to the fact that at the base of the hill stood the birth place of the late Mr. Sawyer, the home of a long line of ancestors. City Clerk Fred E. Quimby presented the gift on behalf of the city. John Seales a local historian, followed with an interesting historical address.

## ANOTHER PROBLEM FOR THE STATE DEPARTMENT

Washington, Aug. 3.—Cipriano Castro's return to Venezuela, followed by today's dispatches of his seizure of officials of the Gomez Government at Coro, present to the State Department another Latin-American puzzle, anything but a welcome addition to those already pending.

While Sec. Bryan Saturday declined absolutely to outline the attitude of the United States toward Castro the day's developments made it evident that the United States was getting into touch with the situation.

Henry F. Tennant of New York was nominated for Secretary of the Legation at Caracas, and will hurry to Venezuela on the protected cruiser Des Moines, sailing from Brunswick, Ga. for La Guayra, Monday. The Legation now is in charge of a clerk.

Sec. Bryan, after a conference with W. W. Russell, late minister to the Dominican Republic and once minister to Venezuela during Castro's regime, announced that he expected soon to announce the appointment of a new American minister to Venezuela, succeeding Elliott Northcutt, resigned.

It is believed Mr. Russell would be the man. The State Department received practically no official information of Castro's activities during the day.

The Senate later confirmed the appointment of Henry F. Tennant, giving immediate legality to his designation as secretary and charge d'affaires at Caracas.

## GERMS FAIL TO SUCCUMB

Ultra-Violet Rays Found Too Weak to Kill All of the Bacteria That Thrive in Milk.

Washington, Aug. 3.—Although the ultra-violet rays may sterilize water in Europe, the vigorous bacteria in American milk refuse to succumb to their influence.

This discovery has just been made by chemists of the Department of Agriculture, who have completed a series of experiments with the rays in the hope of discovering some method that would insure complete sterilization of milk.

The scientists found that while the rays were efficacious in disposing of much of the bacteria, many of the pathogenic or disease-producing germs survive.

In the course of the tests the department chemists found it was impossible to sterilize completely even dirty milk bottles with the rays, let alone to accomplish the sterilization of the milk solids. Further inquiry as to the means adopted by the European scientists in the use of the rays probably will be made.

## WANTED AT WATERVILLE

Dover, N. H., Aug. 3.—The police took into custody Saturday for the Waterville, Me., authorities a man answering the description of George Cashua, or Lachance, who is wanted there on the charge of larceny of \$500. The arrest was made on a street, by patrolman Scoulen.

The prisoner claimed to be George Bartholomew and to have just arrived here from New York city. On being searched his clothing yielded \$471.80, including \$100 certificates. It was learned that he had shortly before exchanged a \$100 gold certificate at a local bank for smaller bills. A young woman who had been with him this morning appealed to the overseer of the poor for transportation to Waterville. The Waterville authorities were notified.
